**DETAILED ACTION**

1. This application is in condition for allowance except for the following formal matters:

In claim 5, there is no antecedent basis for the term "the bottom end"; and

Support must be provided in the specification for the term "punched sheet-metal" in claim 5.

In the specification, references to claims on page 3, lines 9-12, must be deleted because the specification must be complete in and of itself.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

***Oath/Declaration***

2. The oath filed 7/10/06 has been entered.

**REASONS FOR ALLOWANCE**

3. The following is an examiner's statement of reasons for allowance: the closest prior art, namely Di Biase 5,658,633, fails to teach or suggest a docking buffer comprising two U-shaped parts having limbs attached to the bases of the U-shaped parts at an angle other than 90 degrees in combination with all of the other limitations of claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
